

## GERMANS FIND A NATIONWIDE PLOT OF RED WORKERS

COMMUNISTS OF A DANGEROUS TYPE ARE ABROAD IN GERMAN-SPARTACISTS BELIEVED TO HAVE FORMED A MURDER-BUND IN KAISER'S FORMER LAND.

By Carl D. Groat

(United Press Staff Correspondent.)  
BERLIN, Nov. 24.—Communists of a dangerous type are afoot in Germany.

Their plots for the winter are coming to light. These range from milk demonstrations to organized murder. And, while leaders are innocently declaring that the intentions of both independent socialists and communists are peaceful, the Government is constantly rounding up documents proving that at least among certain groups of communists, there exist plans of the bloodiest nature.

Government disclosures leave little room for doubt that some of the wilder spirits among the Spartacists propose to form murder-bund that would do away with its political opponents.

For instance, Munich newspapers, Prussian Minister-president Hirsch, and the military are authority for revelations in the closing days of September showing that among other

things, the Spartacists planned the following:

(a) To do away with a large number of officers and soldiers in Munich, slaying them as they slept; (b) that a group of reds from Munich proposed to blacklist a number of prominent officials, draw lots and then "put away" the condemned; (c) that, particularly in Munich plans were afoot for creation of red "shock troops" to use against the regular military—particularly against monarchistic officers; (d) that in case of demonstrations, women and children were to be put in the fore rank to shield the cowards behind from the machine guns of the Government troops; (e) that the communist government should ally itself with the anarchistic-syndicalist groups.

### Trying to Fool People

All evidence at hand in the past few weeks has shown quite conclusively that the Spartacists and the Independents were endeavoring to prove conclusively to Germany and to the world that they had moderated. Certainly, in general, they adopted a new course of tactics from that pursued last winter and spring when rioting and bloodshed were the order of the day. Their new course appeared to consist in fomentation of strikes and other internal troubles with a view to so embarrassing the government and hampering the national life that the existing regime would be overthrown.

Now, however, the evidence of the government contained in documents seized from imprisoned Spartacists shows that whereas sabotage and kindred weapons were probably favored by the bulk of the communists, there was another group that believed in

## EXPOSITION SITE TO BE DETERMINED AT ANOTHER MEET

CHAIRMAN BROREIN HAS CALLED ANOTHER SESSION OF COMMISSION FOLLOWING ATTORNEY GENERAL'S OPINION — JACKSONVILLE INDIFFERENT

That Pensacola may yet get the Centennial Exposition, commemorating Florida's purchase, is indicated in dispatches from Tampa and Jacksonville to the effect that Chairman Brorein has called another session of the Centennial Commission and that Jacksonville has decided not to make another effort to have the centennial located there.

The decision of Chairman Brorein to call another meeting was the result of Attorney General Swearingen's opinion that the commission had no legal authority to divide the exposition between four cities.

In Jacksonville it is stated that no further effort will be made to have the exposition located there. Miami has already indicated that it will make no bid for it, and Tampa does not care to undertake the job.

With these three practically eliminated it looks as if Pensacola will get the allocation without a struggle. Such a location is not regarded generally in the State as being desirable as Pensacola is so far out of real Florida. If the exposition is held there, it is pointed out, few visitors will have an opportunity of really judging Florida.

"direct action" of the worst sort.

The murder of Government inspector Blau in August led the government to probe even more deeply than before into the secret workings of the communist group. The general investigation led to a number of arrests, including the haul at Halle wherein about a dozen of very radical strikers were captured. It also proved to the government's satisfaction that Blau was killed by reds, who suspected him of being a spy.

### Munich Is the Center

Munich continues to be a fruitful source of communist agitation. Some of the reddest of the reds have their headquarters there. From these headquarters issue secret orders which every now and then fall into government hands and prove that not only are these agitators willing to harm, and even halt, the national industrial life, but have no really sincere desire to benefit the laboring man. Instead, it has been shown, that the agitators are fattening on proletarian funds, some of which emanate directly from Bolshevik Russia, and other of which are collected from the "brethren" in Germany, Austria and Czech-Slovakia.

Part of the program of these agitators is to give their course an air of respectability by recruiting "intellectuals." One set of documents obtained recently show that orders were out for the radical press to cease making any harsh attacks upon the government "in order to lull the officials into a sense of security." The same set of orders declared that the "intellectuals" must be organized and that their aid must be obtained in furthering the communist cause.

An intellectual is what in the United States would be called a parlor Bolshevik. Many of these people, who honestly believe in the cause they preach, are being used as tools of paid professional agitators who work with poison, guns, and propaganda to upset the existing order and to supplant it with a new regime, according to government evidence.
